PAC Code: GYC40

Accounting Exemptions

SAP
Certification

KPMG led Analytics Summer School

This full year postgraduate programme is suitable for graduates from business related programmes who have not specialised in accounting and who now wish to do so.

What our Employers Say

"Analytics is the key skill that differentiates an accountant from a true business partner, and can ultimately define the career of an accountant as analytics brings more meaning, life and understanding into accounting information".

Conor Clifford, Director of Finance - Medtronic NUI Galway Graduate Course Level: Level 9

Duration: 10 / 11 months

Entry Requirements:

 A first class or second class honours grade 1 in a commerce/business degree or a GPA of 3.5 (out of 4) will be required, which must have included the study of Financial Accounting and Management Accounting and Business Finance to intermediate level.

2) All applicants, whose first language is not English, must present one of the following qualifications in the English language: IELTS (6.5 overall), TOEFL (88), or PTE (61).

Fees: EU €7,095 and Non-EU €14,750.

Apply: www.pac.ie/nuigalway PAC Code: GYC40

Alphonsa Cherukodath John, Current Master of Accounting Student and qualified Indian Chartered Accountant.

one of the best universities."

"This programme has helped me to gain practical knowledge through

problem solving in the various accounting and finance modules. It has made me more professionally competent as a result of the presentations, case study analysis and debates that are all part of the programme. The university is bigger than I expected and has advanced facilities for students – a large library with on line resources, career development centre, student support services, and a large gym and many other sports facilities. The Teaching Faculty of the programme are very professional and all have industry experience which helps me to understand the topics more easily. Galway is a diversified city with very good infrastructural facilities and people are very friendly. The weather in the city was a completely new experience, but I have adjusted!"
